

Service. Unmatched.

KLDiscovery helps clients solve complex data challenges. Through our global KLDiscovery and Ontrack businesses, we deliver integrated, best-in-class ediscovery and data recovery technologies and services to support litigation, investigation, compliance and recovery from data loss.

Experience that matters.

KLDiscovery has strong industry roots and an exciting, innovative future. Our strength in building great technology and delivering the highest quality services is the foundation for bringing exceptional ediscovery and data recovery solutions to our clients.

Around the globe. Across the street.

KLDiscovery is a global leader with the ability to serve global clients through strong international reach and local ediscovery and data recovery expertise.

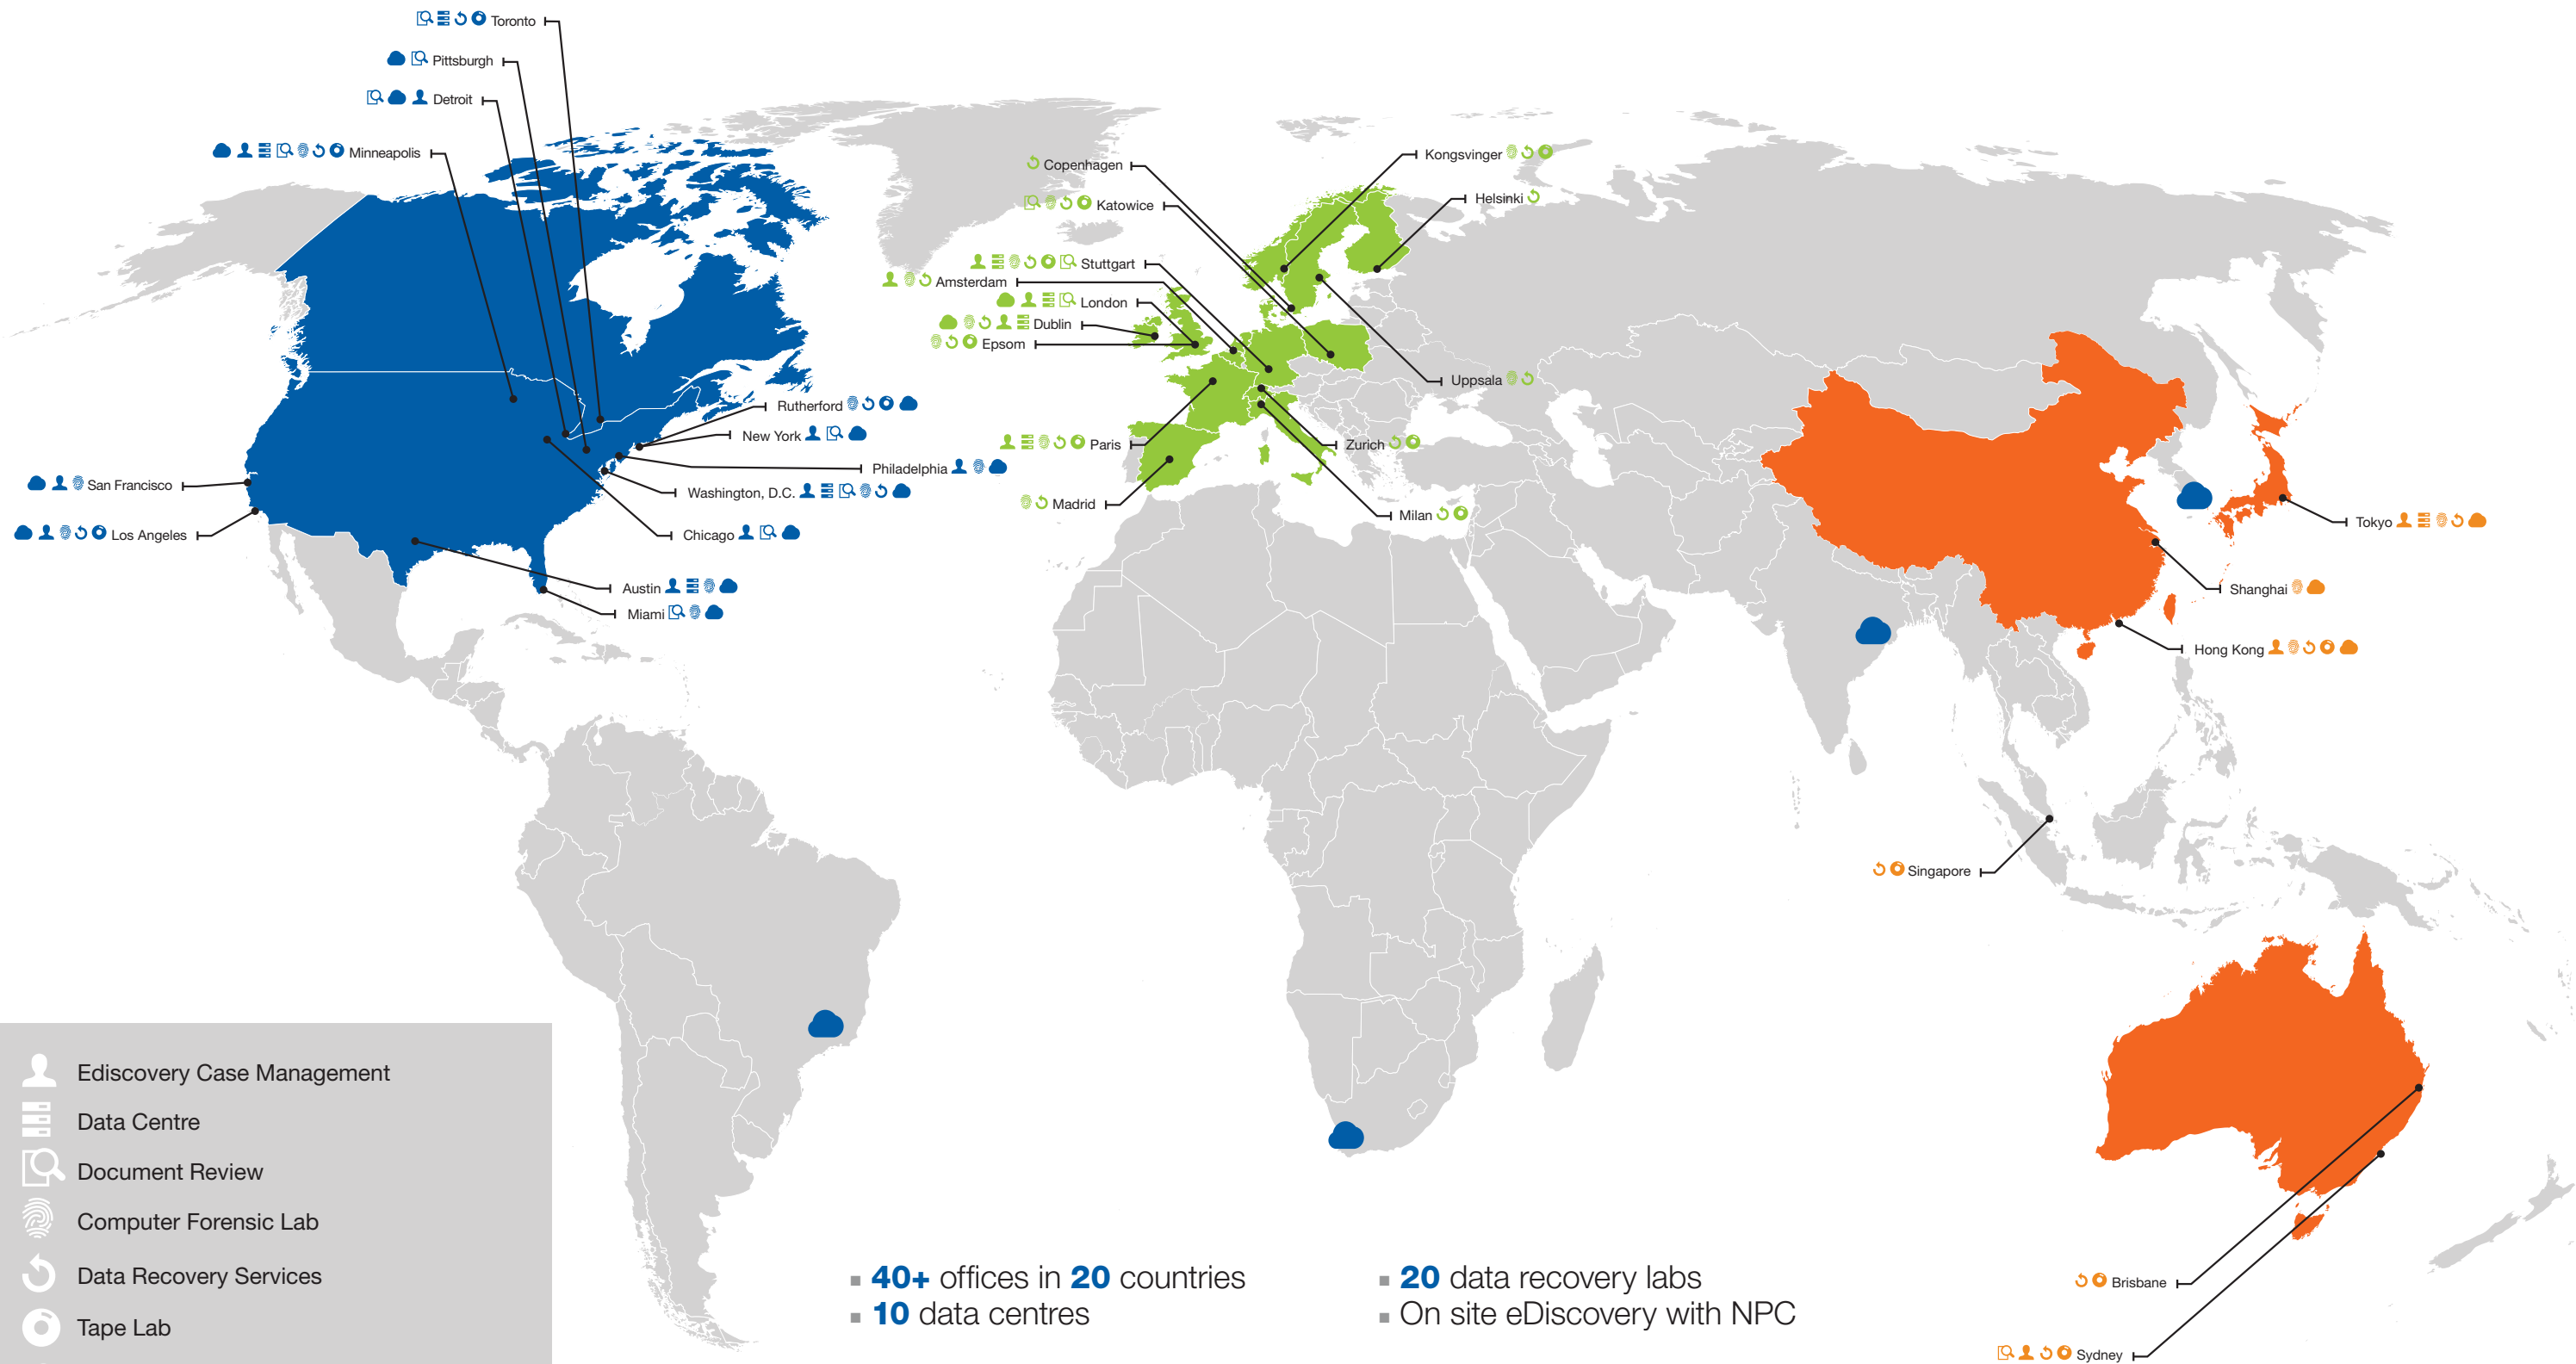

Pioneers and innovators.

Combining our deep industry experience and technological heritage, KLDiscovery brings you proprietary and best-in-class tools and capabilities across the ediscovery and data recovery spectrum.

Consultative support and services.

KLDiscovery prides itself on exceeding the highest standards of client service 24 hours a day, 7 days a week, 365 days a year. We offer a full range of consultative project support and document review services to help you tackle the complex, the challenging and the simple.

capabilities delivered
with local expertise.

Pioneers and Innovators with Experience that Matters

KLDiscovery's deep industry experience, technological heritage and consultative expertise drive creative products and solutions.

■ Information Governance

Data archiving and enterprise solutions to help organisations manage data and be better prepared for data events and challenges.

■ Data Recovery and Destruction

Market-leading proprietary software and services to recover and restore data and promote secure data deletion.

■ Collection

Industry-leading proprietary remote collection capabilities and global collections expertise to ensure forensic soundness of data collection.

■ Processing

Proprietary tools and technologies integrated directly with Relativity and Nebula™ plus mobile technology to address data privacy.

■ Hosting

Powerful combination of 3rd party and proprietary hosting platforms in 10 data centres around the globe.

■ Analytics, Review and Production

Innovative proprietary review technologies including patented Predictive Coding, as well as significant Relativity expertise: the first provider to license Relativity, a deep bench of Relativity certified professionals, back-to-back Relativity Innovation Award winner in 2015 and 2016, and creative workflow customisations such as AutoRedaction, A/V Suite, and PrivLog Builder®.

■ Document Review Services

Fully managed global document review services and expertise around complex legal projects.
