Your client's data. Recovered.

Recover your client's data quickly with Ontrack® EasyRecovery™ Technician for Mac®. Approved for commercial use, Ontrack EasyRecovery Technician is a powerful data recovery software that recovers lost documents, photos, music files, and videos that have been accidentally or intentionally deleted from HFS, HFS+, FAT, ExFAT and NTFS format-based file systems.

The Ontrack EasyRecovery Technician application facilitates RAW recovery on lost Mac volumes and data recovery from Encrypted file systems. It is a complete data recovery solution for macOS® X after logical disk errors, along with a clean Mac® file recovery from unmounted OS X volumes.

- **Improved User Interface** is one of the easiest-to- use data recovery products available for Mac.

- **Quick Scan and Advanced Scan** options allows you to scan deleted files efficiently for a fast recovery or perform a more in-depth scan for files which were deled due to formatting or corruption.

- **Restore Deleted Volumes** by locating and rebuilding corrupt, damaged or deleted volumes on any HFS, HFS+, FAT, NTFS, or ExFAT formatted drive.

- **Image Creation** of your Mac hard drive can be stored to your hard drive or any other external drive to be used for a data recovery at a later date.

- **BootCamp Partition Recovery** of deleted, damaged or corrupted partition can easily be recovered with Ontrack EasyRecovery Technician.

- **RAW Recovery** feature, when selected, works on the concept of file signature matching. The product can precisely identify over 122 different file types and correctly match them to revive inaccessible files.

Ontrack EasyRecovery Technician for Mac is compatible with macOS® Sierra 10.12, 10.11, 10.10, 10.9, 10.8, 10.7 and 10.6.
